

ORGANIC AND
REGENERATIVE
INVESTMENT
COOPERATIVE

The Organic & Regenerative Investment Co-operative (ORICoop) is excited to be releasing the details of our first Investment Offering over the coming week, a fully certified large organic farm in Central Victoria.

Full ORICoop details are [HERE](#)

ORICoop is founded on the principles of Co-operative values, community, preserved organic farmland, real financial returns and local food systems. We are excited to share an aspect of this – and are seeking expressions of interest for a component of the horticulture/market garden farmland management opportunity. The area and opportunity is conditional on finding the right person, with good experience and engaging with the local organic food community.

OUTLINE DETAILS:-

-
- 10 - 20 acres of certified organic farmland available
- Management position, with lease/profit share opportunity
- Near Bendigo region, in Central Victoria
- Will be part of a Co-operatively owned fully certified organic farm
- Strong market opportunities in Bendigo and surrounding areas
- Innovative ownership/management structure
- Secure irrigation water
- Long term position (5+ years)
- Cost is negotiable, but likely from \$10,000 per year (STA)

If you think this might be you, or someone you know – please encourage them to get in touch!

Application Form [HERE](#)

We also encourage you to Register with Cultivate Farms for further potential opportunities, with ORICoop and other organic farms. Full details are [HERE](#)
